Module 4: Control Structures, Functions, and Data Structures
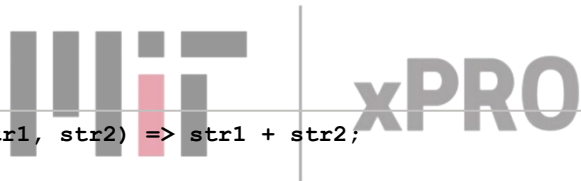

Practice Activity 4.4 Arrow Functions

Activity 1 – Solution

```
const calculateSquare = num => num * num;

// Driver Code
const result = calculateSquare(5);
console.log(result); // Output should be 25
```

Activity 2 – Solution

```
const concatenate = (str1, str2) => str1 + str2;

// Driver Code
const result = concatenate("Hello", "World");
console.log(result); // Output should be "HelloWorld"
```
